

SW Interiors avoids downtime and gets 10 year peace of mind

Established in 2012, SW Interiors is a family-run kitchen design and installation company based in Brockholes, near Huddersfield, West Yorkshire.

Offering a free design service using 3D CAD software, the company specialises in high-quality, made-to-measure kitchens. It also offers bespoke made-to-measure furniture for bedrooms and dressing rooms. Everything is manufactured in house, with great attention to detail, before being fitted into the customer's home.

Project date: 2018

What was needed:

Early in 2018, the company's second-hand air compressor suffered a failure and, when it became clear that it was no longer worth repairing, given the age of the machine, a replacement compressor needed to be purchased and installed.

What we did:

To ensure that SW Interiors could continue manufacturing its bespoke kitchen units, we installed a free hire machine to tide the company over. After

data logging the site, we recommended the purchase and installation of a new, market-leading Atlas Copco GA7-8.5 Rotary Screw air compressor with a built-in dryer.

Why PPS?:

PPS had installed the original compressor when SW Interiors began trading in 2012 and had been responsible for servicing it, so the two companies already had a good working relationship.

Key benefits:

By ordering a new air compressor, SW Interiors was able to benefit from a free hire model until the new machine was installed.

Providing compressed air to run point-to-point drilling machines used in the manufacture of the kitchen and bedroom units, the new compressor has spare capacity, which could potentially be used to drive other machinery in the future.

The new unit is under Guardian cover at a fixed price, which covers both service and warranty costs for the next 10 years, giving the customer additional peace of mind.

Another happy customer:

"PPS are first class: professional and reliable. Whatever they say they are going to do, they do – and they do it when they say they are going to do it. They offered a top-notch service throughout and they helped us to keep the business running. We would definitely recommend the company and use them again ourselves."

Stuart Wood, Director at SW Interiors.
